Summary

Senior Front-end Engineer with **5+ years** of professional experience building scalable and high-performance web applications using **React**, **Next.js**, **TypeScript**. Passionate about building applications with a strong focus on performance, code quality, and user experience. Experienced in collaborating closely with Backend, Product, and UI/UX teams in Agile environments. I adapt quickly to new technologies, leverage modern tools and actively embrace and integrate cutting-edge technologies — including **Agentic AI development** — to accelerate workflows and deliver high-quality products.

Skills

Core Full-Stack & Web

Languages: TypeScript, JavaScript , HTML5, CSS3

Framework/Libs: React, Next.js, Node.js, Express

AI-Assisted Development: Agentic development, Harness, LLM APIs, Prompt Engineering, n8n

Databases: PostgreSQL, MySQL, MongoDB, Redis

DevOps

CI/CD: GitHub Actions, Pipelines

Infrastructure: Docker, Cloud Platforms

Architecture

Monorepo (Turborepo/Nx/Lerna), Design Systems, Atomic Design, Feature-Sliced Design (FSD), Multi-Tenant Architecture, RBAC Systems

Industries

Ed-Tech, E-commerce, Fin-Tech, Security, SaaS

Development Tools

Data: RESTful APIs, TanStack Query, Axios, Fetch

State Management: Redux, Zustand

Forms: react-hook-form, Zod

Styling & UI: Tailwind CSS, Shadcn/ui, Chakra UI, Material UI, SCSS

Performance & DX: Core Web Vitals, Bundle Optimization, Storybook, Accessibility (a11y)

Testing & QA: Vitest, Jest, Playwright (E2E), Integration Testing

Soft Skills

Code Review, Engineering Excellence, Technical Mentorship, System Documentation, Strategic Collaboration

Methodologies

Agile, Scrum

Education

Master of Software Engineering

Payame Noor University

2021 – 2023 *Tehran, Iran*

Bachelor of Computer Engineering

Ayatollah Borujerdi University

2017 – 2021 *Borujerd, Iran*

Professional Experience (Employee)

May 2021 – May 2026

5 Years

Full-time ***In-site***

Tehran, Iran

Front-end Team Lead

Kahkeshan Group of Companies

- Led a front-end engineering team and established code-review standards across 15+ web applications, improving consistency, maintainability, and adherence to engineering best practices.
- Streamlined development workflows and standardized the UI architecture, increasing team delivery efficiency by 25% and reducing duplicated implementation.
- Architected a scalable migration strategy from legacy systems to a Modern Stack, enhancing long-term system stability and performance while fostering team growth through mentorship and technical roadmap planning.

Professional Experience (Freelancer)

May – Oct 2026

6 Months

Hourly ***Remote***

Toronto, Canada

Full-stack Developer

Sama Partners

- Engineered a 30% reduction in render time for data-intensive modules by integrating Code Splitting, Lazy Loading, and Dynamic Imports combined with modern rendering patterns (SSR/RSC).
- Elevated technical SEO and runtime responsiveness by auditing asset delivery pipelines, resulting in a more performant and crawlable architecture for content-heavy application interfaces.

April – Sept 2026

5 Months

Contract ***Remote***

Tehran, Iran

Full-stack Developer

Behrang Music Academy

- Engineered a robust, end-to-end full-stack platform from inception to deployment, architecting scalable relational database schemas and backend API services to power a centralized digital ecosystem using a Next.js/Turborepo monorepo.
- Digitized the academy’s traditional service model, implementing secure server-side workflows and automated data-driven pipelines for lead management and registration, which directly fueled a 30% revenue growth and enhanced user engagement.

Nov 2024 – July 2026

1 Year , 9 Months

Part-time ***Remote***

Tehran, Iran

Senior Front-end Developer

Salona

- Spearheaded the end-to-end development of a greenfield salon management platform, architecting a scalable frontend capable of reliably supporting 1,000+ active concurrent users.
- Boosted mobile engagement by 70% by engineering and deploying a high-performance PWA/TWA, delivering a seamless native-like experience across mobile devices while optimizing cross-platform accessibility.

Aug 2023 – Oct 2023

3 Months

Part-time ***Remote***

Tehran, Iran

Front-end Developer

Borzabadi Language Center

- Developed a specialized online GRE examination platform, simulating the official testing environment.
- Engineered complex front-end logic to handle all GRE question types, including interactive verbal and quantitative sections, while ensuring high performance and real-time response handling for students.
